

This booklet developed out of regular local history meetings held at Trinity Church during 2008-09. The content has been researched and compiled by local residents, some of whom have lived in the area for much of their lives.

Gosforth High Street now falls within a Conservation Area, created in recognition of the area's historic and architectural character. This guide reflects this value by identifying a number of significant or unusual features, and presenting these features in a format that lends itself to a short walk, up and down the High Street.

This publication is one of two titles relating to Gosforth High Street.
